

GAP HYGIÈNE SANTÉ

Environmental Research Consultancy

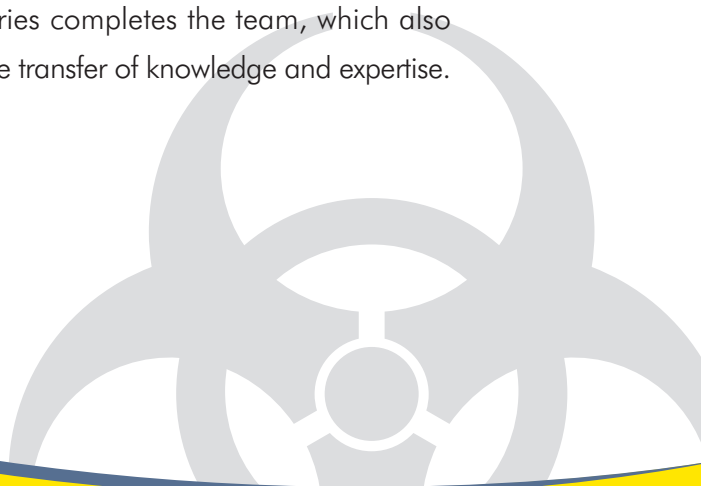

Our field of expertise - Management of Potentially Infectious Medical Waste (PIMW).

Our clients - *The authorities*, local authorities, groupings of town and local district councils, trade unions, non-profit organisations. *Private clients*, healthcare professionals and pharmacists, medical equipment retailers, healthcare establishments, non-medical practitioners who come into contact with the human body, vets and those working with animals, and self-treatment patients. **The company** - GAP Hygiène Santé is a SARL (limited company) founded in 2002 in the form of a *research consultancy* specialising in hygiene and healthcare-related environments consultancy and communications services.

The company uses its expertise to provide a comprehensive solution for the Potentially Infectious Medical Waste circuit. **Products and Services** - GAP Hygiène Santé designs,

manufactures and manages Automatic and Non-Automatic Voluntary Drop-Off Points for Potentially Infectious Medical Waste. The company selects customised packaging for its clients (needle boxes, cardboard boxes) and offers a collection and treatment service for their PIMW. GAP Hygiène Santé *has also designed* PILOTRACE®, *a piece of waste management and tracking software.* **Expertise** - The company's skills and expertise enable it to carry out audits and diagnostics, recommending a customised range of services for the problem of Potentially Infectious Medical Waste. GAP Hygiène Santé also runs environmental communications campaigns combined with training courses on "What to do, and what not to do".

Production - GAP Hygiène Santé's Production Unit enables it to be responsive and in tune with its clients' needs, and to offer a tailor-made range of Voluntary Drop-Off Points. **The team** - Georges A. Prieur, with over fifteen years of experience in the Potentially Infectious Medical Waste sector, is bolstered by a team of environmental specialists and experts. A network of sales executives throughout France and the French Overseas Departments and Territories completes the team, which also includes an Export Manager who is responsible for the transfer of knowledge and expertise.
